

INTERNATIONAL

MOTH 1975

15p

PART 2.

THE CARTOONS !!

WHICH DESIGN?

Skol

Mk. III version now no longer in production in U.K., but earlier models still available. All glass boats or glass and wood. Slim bow, round bilge, flattening aft. Modified to have wider transom on Mk. III—this also meant larger wetted area. National Championship won in S.L. design and when fitted with wings still competitive. Suitable 12½-13 stone helmsmen. For further details see advertisements.

Stockholm Sprite

Designed by Chris Eyre in 1968. Narrow with hard chine throughout. National Championship won with this design, our highest position ever in Worlds, and well placed in all current Open Meetings. Suitable 12-12½ stone helmsmen. Available complete, bare hull, kit or plans. All wood construction. For further details see advertisements.

LYMINGTON SAIL & TENT CO

HOW TO GET STARTED

The problem of knowing which design to choose is the cause of more difficulty to would-be Mothists than any other, when they are new to the class.

Probably the best advice we can give people who are interested is study the boats described in this book, study friends' boats, ask around and then buy a second-hand boat for the first season. During this time consideration can be given to the finer points of each design and if necessary a new boat can be built, bought or even designed to suit your own particular requirements.

Another good piece of advice is to buy a boat with a sail that can be reefed or with a storm sail—because during the early days of Moth sailing, those strong winds will keep you ashore instead of afloat getting all that vital experience.

Once you've got your boat, don't forget that you must be a member of IMCA (UK) before you will be allowed to race, you must have it measured—or transferred to you, and you need insurance.

How important is boat weight?

A great deal of discussion takes place everytime Mothists get together over this problem and Mothists have always stressed how light they are. But remember your boat should not only be light it must be **strong**! Your boat must stay together otherwise it is impossible for you to win.

We live in a country where on many weekends of the year very strong winds prevail and time and time again we see strong boats with reefed sails up among the winner because they survived! And if weight is all that important, how is it that our President—who weighs 13st.—is so often in the first three?

Remember this, if you build your boat so weak that it doesn't stay together you not only lose all chance of winning, you also cause bad feeling at the clubs concerned and get the class bad publicity. We sail a high performance boat and the stresses that this high performance can cause must be taken into account when building a Moth!

The main area of trouble is not usually the hull, particular care should be with transom and part of the hull where shroud plates are going and wings when these are fitted. Before going afloat each time check that all shackles, screws, fittings etc., are tight. Watch the helms at the top of the fleet—they always check. Particular attention should be paid to the rudder and tiller extension, and mast steps (these two items are the largest cause of trouble). If you get involved to port/starboard collision with a Dragon or some such class there is a reason for your boat to break up, otherwise it is down to carelessness or inefficiency.

If its any consolation, it can happen to the best. The 1973 World Champion Ian "Charley" Brown would probably have won the 1974 title instead of coming second if his boat had not let him down in a vital heavy weather race. This is not meant as criticism of Charley's boat—only to show that if this can happen to the World Champion it can certainly happen to us with lesser ability.

HOW TO REGISTER YOUR BOAT

The Royal Yachting Association, Victoria Way Woking, Surrey, GU21 1EQ, have taken over the allocation of sail numbers and the issue of certificates.

For new boats or any International Moths without sail numbers please send £2 building fee to the Class Secretary who will complete the necessary form and send it to the RYA, who will then send the number direct to the owner. This sometimes takes a week or two so place don't beef to the Secretary.

To obtain a racing certificate please send 25p to the Class Secretary for a measurement form and a list of official boat measurers. Contact your nearest measurer and get your boat measured and the form duly completed and signed. Send the form direct to the RYA. Remember do not send it to the Class Secretary. If you are an RYA member your certificate will be issued free otherwise the charge is £4. Membership of the RYA cost £3 plus VAT so its cheaper to join.

Transfer Certificates. Transfer of ownership invalidates a certificate. Send the old certificate to the RYA. Charges are the same, £4 or free to members. Note again, it is no good sending any certificate to the Class Secretary.

A way to save time and money: When registering a boat, please send the £2 plus 25p for measurement form at the same time. This will save both you and the Class Secretary time and postage. Builders should pass the measurement form and the 25p cost on to the purchaser.

who - what - why - when - which - where - HOW

HOW TO GET YOUR BOAT MEASURED

Before an International Moth can be raced it is necessary to have a measurement certificate to show that the boat complies with the class rules and it will have to be measured to confirm this. Measurement can only be carried out by an IMCA approved measurer and a list of measurers follows this article.

Before it can be measured a sail number must be allocated by the RYA and this number put on the sail and hull. Both sets of numbers must be in accordance with the class rules (obtainable from Class Secretary or RYA). Stick on sail numbers are obtainable from Rockall Sails Ltd. and the numbers on the hull are most easily done with a series of dimples made with the point of a drill. **Note:** Painted numbers are not accepted to be indelible as required by the rules.

When presenting a boat for measurement make sure that the following points have been covered:

(a) A building fee has been paid and the receipt is available for the measurer's inspection.

(b) A measurement form and a sail area measurement form are available for the measurer to fill in.

(c) The hull, mast, boom, sail and battens are available for the measurer to measure.

(d) The sail and the hull are marked with both the boat's number and the national letter (letter K in the U.K.).

(e) "Black" bands have been painted on the mast head, mast foot and boom outer ends. **Note:** Sticky tape is not acceptable but the bands do not necessarily have to be black—any contrasting colour is acceptable.

"Black" bands should be placed so that sail, when racing, will never be extended beyond their inner edges, subject only to a limitation of 5185mm. between the inner edges of the bands on the mast. Bands must be not less than 15mm. wide.

No two boats in the same country may have the same name so the proposed name should be submitted to the RYA for approval when the sail number is applied for.

Certificates are only valid if the owner is a member of IMCA and application forms for membership are available from the Class Secretary.

Measurers are required by IMCA (UK) rules to charge a measurement fee of £2 and are entitled to charge travelling expenses. In the event of there not being a convenient IMCA measurer in your area an approved RYA measurer may be used, but his fees may be considerably more than IMCA measurers.

Having had the boat successfully measured and the measurement forms completed by the measurer, the form must be forwarded to the RYA and a certificate will be issued.

Queries on interpretation of rules should, in the first instance, be referred to Peter Conway, Chairman IMCA Measurement Committee, 01-578 2300, ex 288 (business).

IMCA (UK) Official Measurers

Peter Conway, 8 Tewkesbury Avenue, Pinner, Middlesex. 01-578 2300, ex. 288 (business).

Colin Brown, 41 Wood Lane, Darenth, Kent.

Mervyn and Jacques Cook, 6 Park View, Hollies Court, Addleston Surrey. 97 40853.

Neville Grindley, 60 Half Edge Lane, Eccles, Lancashire. 061-789 6528.

John Byrne, 58 Ullswater Road, Dewsbury, Yorkshire. 0924 463020.

which - where - how - who - what - why - WHEN

WHEN ARE THE OPEN MEETINGS ?

Due to going to press earlier this year, the full Open Meeting list was not available on time. Therefore the list following will be added to and information sent to members through the Newsletters.

March 2nd—Thamesmead Open (one-day event). Thamesmead S.C., London.
March 16th.—Ruislip Open (one-day event). Ruislip S.C., London.
March 29th, 30th, 31st.—Easter Regatta: Lymington Town S.C., Lymington, Hants.
April 26th-27th.—Leigh-on-Sea Open. Leigh-on-Sea S.C., Essex.
May 3rd-4th.—Blue Circle Open, Blue Circle S.C., Kent.
May 17th-18th.—Gurnard Open, Gurnard S.C., Isle of Wight,
May 24th, 25th, 26th.—Eastern Championships, Marconi S.C., Essex.
May 31st-June 1st.—Southern Championships, Sovereign S.C., Eastbourne, Kent.
June 7th-8th.—Hoo Open, Hoo Ness Y.C., Hoo, Kent.

OTHER EVENTS WHICH INCLUDE MOTH RACING:

July 17th-20th.—Medway Regatta, Medway Y.C., Kent.
July 28th-August 1st.—Cowes Dinghy Week, Isle of Wight.
August 9th-10th.—All Singlehanders Open, Hoo Ness Y.C., Kent.

NATIONALS.—Provisionally booked Yarmouth. September 4th, 5th and 6th.

TRAVELLER'S TROPHY.—Last year because of the emergency and the talk of petrol rationing we abandoned the trophy, this year we have decided to run a modified series. For 1975 all Open Meetings will count towards the Traveller's Trophy—best six positions to count (in the event of a tie next position to count, etc.). Open Meetings to include Southern, Easterns, Northern, but not Nationals.

IMPORTANT: Please notify the club concerned as early as possible if you are going to attend their meeting. It is no good turning up on the day and then moaning that they have not laid on sufficient rescue facilities, catering, etc. Also read the advance notices sent out in Newsletters to see if there are any local conditions (i.e. most of the sea clubs insist an anchor must be carried). We know travelling to clubs is expensive but racing is what International Moths is all about. At our club we usually agree amongst ourselves to attend a fair number of Opens together, this enables us to reduce cost, gives company on the journey, and stops individuals from winning the club series by just staying at home.

Handicap Racing.—Our Portsmouth Yardstick at present is 100 (this figure is reviewed each year) but it has been agreed that our older designs with sail numbers K2950 and lower shall race of 103. This only applies in handicap racing—not class racing.

which - where - how - who - why - when - WHAT

WHAT DOES IT COST?

IMCA (UK) membership

Full Member: Full membership starts on January 1st after member's 19th birthday—£3 p.a.

Junior Member: Junior membership runs from January 1st after member's 15th birthday, till December 31st after 19th birthday.—£2.50.

Cadet Member: Members are classed as Cadet Members till December 31st after their 15th birthday—£2.

Associate Member: Any person interested in IMCA who does not own a boat—£2. Annual subscriptions are payable on election, and on 1st January, except that any new member enrolled after 1st October who has paid subscription in that year shall not be required to pay a subscription for the following year.

Payment of membership subscription entitles member to a copy of the IMCA (UK) Year Book and all Newsletters and Class literature. No persons may sail in any event organised by IMCA (UK) unless they are members.

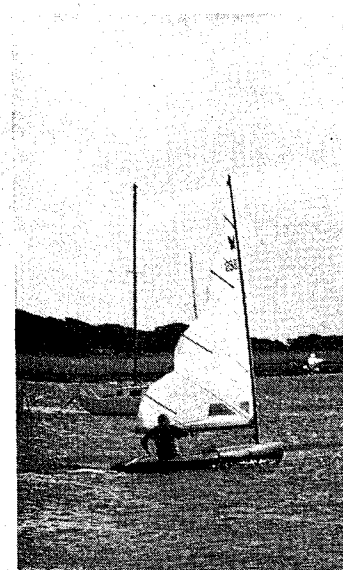

Membership forms available from Secretary.

R.Y.A.

The RYA handles all International Moth boat registration in the United Kingdom (see article on boat registration) and all transfers of ownership. All registrations and transfers are free to members of the RYA. In addition to generally helping with organising sailing facilities, etc., the RYA gives particular help to the class with regards to sponsoring helmsmen for World or European championships and arranging extra rescue facilities when we are host nation to such events. Therefore, because of this, and because it is cheaper to join than not to join, membership is recommended to all our members.

INSURANCE

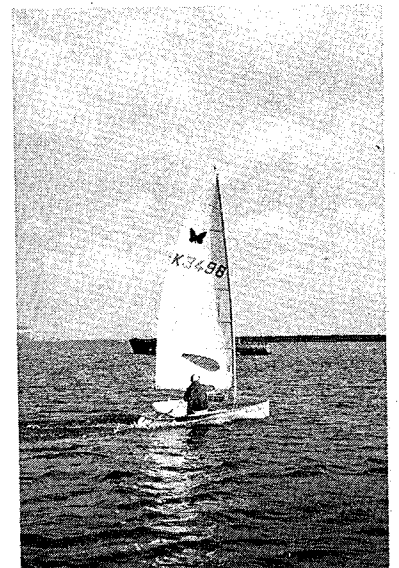

WARNING: Insurance is compulsory at most clubs arranging Open Meetings, and usually at all clubs where International Moths are sailed, so make sure you have adequate insurance. Also be very careful to read the small print. Some policies recently have caused considerable expense and worry to members because companies have refused to pay out. Apparently some have clauses excluding cover if more than two miles out at sea, others do not cover when the wind is over a certain wind strength. If carrying a boat on the roof rack of a car many policies insist that the boat is tied fore and aft, as well as to the roof rack. It pays to check your policy. The Association hopes that during the year it can arrange a policy with a broker that it can recommend to membership for 1976 in the meantime be careful!

Barry Cox's sail—a measurer's nightmare!

Alec Clifton sailing his new Dart design.

Scene from last Open of '74 at Hoo.

WHO ARE THE CHAMPIONS?

Worlds: Once again the Australian helmsmen triumphed with Bob O'Sullivan finally winning and Ian "Charley" Brown—although failing to retain his title—coming second. Highest British position was Chas Reeves—sixth. This was a bit disappointing after our improvement in recent years. It is not anticipated that we will be able to send many to Japan because of the cost involved, so we have set of sights on America in '76 and the following year when we are host nation.

National Champion: For the first time ever we chose the wrong week! And how! With the worst weather ever recorded on the Solent over the whole period (wind gusts up to force eleven were recorded) the championship had to be abandoned! The meeting was saved from being a total disaster thanks to the wholehearted efforts of Lymington Town S.C. who managed to fit in an unofficial series of races in the river, a water polo knock-out tournament, first-class social evenings and an unexpected refund of some of the entry

fee. This is, of course, what we have come to expect from Lymington Town, but it is nice to know that we haven't outworn our welcome and we would like to take this opportunity to thank all concerned again.

Southerns: Won by Peter Conway in a Skol III.

Midlands: Won by Ross Elliston in a Mistral III.

Northerns: Won by John Claridge in the new Magnum.

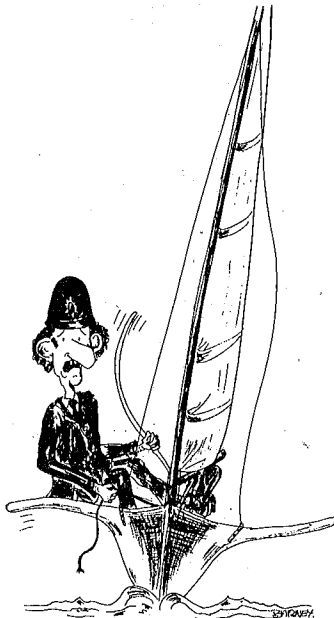

Once again the remarkable thing about the '74 season was the fact that nearly all the major designs won an Open Meeting. These boats between them seemed to cover all the major suppliers or spars and sails.

IMCA (UK) would like to thank all clubs who were hosts for Open Meetings and Regattas for Moths during 1974 and look forward to returning in 1975.

What's in a name?

Enormoth: What a pity it was over-size!

Tomorrow Has Been Cancelled: Rather a pessimistic helmsman.

Chelsea Morning After: Sitting out was no problem, he always had a good hang-over!

SAILING EXPRESSIONS A LA MOTH

Planing!

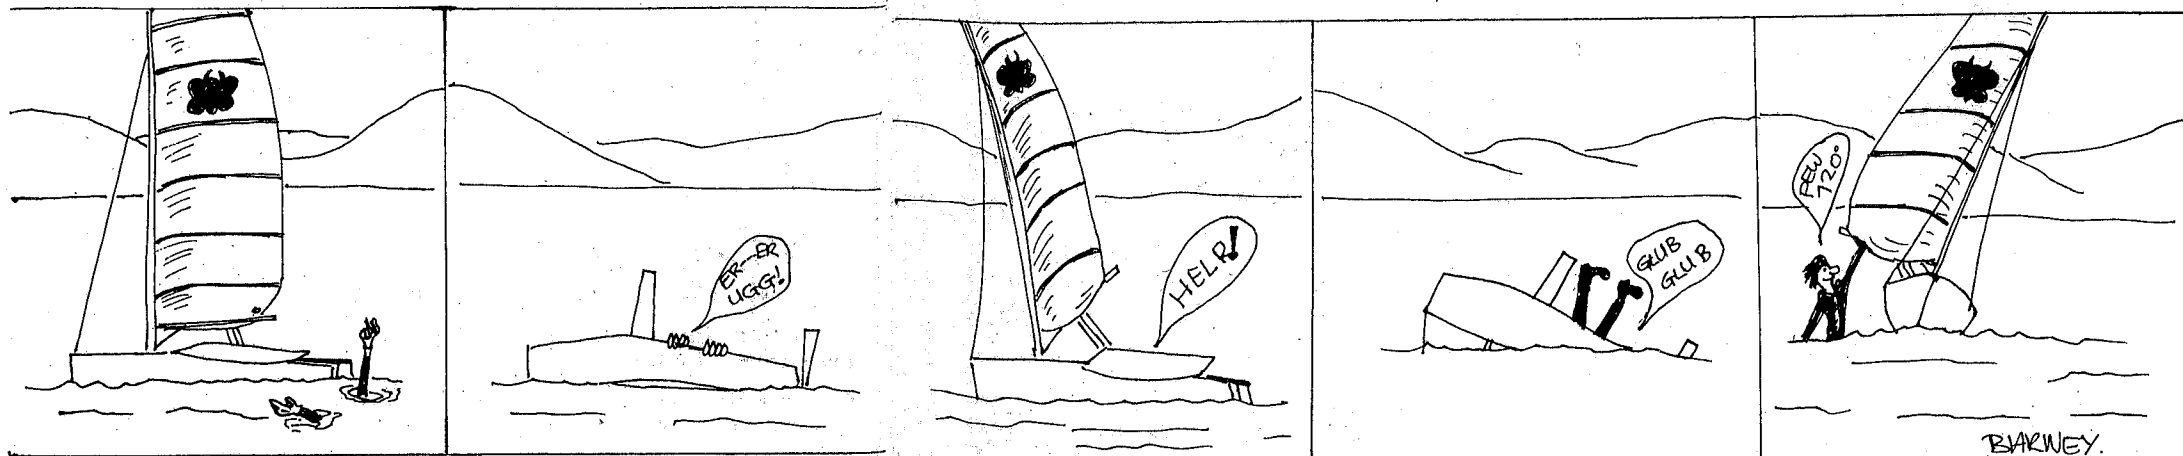

Water at the mark!

NEWSLETTERS

Four copies of Moth Newsletters are planned for 1975. These will go to the printers on March 1st, May 1st, July 1st and October 1st. Last date for inclusion will be one week before Newsletters go to press.

It is important that all Fleet Captains and individuals make sure that all information about coming events and results are sent to either Kim or Geoffrey in plenty of time. Remember the only information we can print is that which is supplied by our members, and it costs nothing to advertise your local regattas, Moth Opens, etc. and is the one sure way to ensure a good turn out. It is no good complaining afterwards that "nobody knew about our meeting!"

Individual members are invited to supply articles, information, talking points, etc. This particularly applies to Mothists from other countries. *It's no good leaving it to others—you must tell us!*

ADVERTISING IN NEWSLETTERS: Members may advertise their boats and items for sale at 25p per advert for non-commercial members. Professional builders etc. can also advertise in Newsletters or have their own leaflets inserted with Newsletters at very little cost.

In all cases get in touch with Kim or Geoffrey—addresses on Page Four.

YEAR BOOK

We need ideas for the Year Book for 1976! Anything! Articles, cartoons, hints—and particularly photographs! If you take any good photographs during the year of Moths, either afloat or ashore, or of members of the association send them to Mick straight away. Otherwise there is a danger that we end up with the same old faces and the same boats. Don't forget we need your ideas!

Make life PLANE

sailing with an
International Moth!

Moth's may not
know all the
secrets of
fast, exciting sailing
—but perhaps they
know more than most!

—with acknowledgement to Horlicks

Bruce Banks

the driving
force in
international
moth sails

We have developed a new fully battened sail and we have also improved our championship winning soft sail. For sails designed for you and your rig, contact us now.
